Bachelor of International Trade

International Programs

Global Education—
It is essential for UDEM to train professionals with a global vision, a capacity for analysis, and a great ability to perform with excellence in the international context. Therefore, it is of the utmost importance that our students develop a relevant international outlook so they can be well received abroad, rather than the difference between their own country and another. UDEM helps students develop a global perspective through international education, with a human touch.

Dual Degree Program—
UDEM international programs can give you an academic degree from a university in a country of your interest. Through exclusive agreements with various universities, it is possible for you to get an international degree from a foreign university. The dual degree option allows you to make the best of the knowledge acquired and apply it to a more international scope.

Academic Exchange—
UDEM's Department for International Programs puts at your disposal about 650 alternatives at the best universities in the world, offering you programs that include summer courses, internships, and study periods of up to one year abroad.

Foreign Students—
UDEM endeavors to increase its international scope and values the diversity of its students, proudly welcoming students from different countries.

Internationalization—
UDEM offers a multicultural on-campus environment through a cold mixture of international participation which includes:

1. The promotion of international activities and programs with foreign students and professors.
2. Study abroad programs that offer courses in other parts of the world.
3. The learning of a third language.

Professional Success

An UDEM LIN can work as an...
The University of Monterrey helps people develop in an integral manner through its personalized educational model. Within an intercultural environment, UDEM identifies and perfects the talent each student has, guiding such talent with academic and human excellence to reach its maximum potential, which results in the student’s professional and personal success.

Experiential Learning—
UDEM has a commitment to the integral training of its students and, thus, offers a series of co-curricular courses and extra-curricular activities through which the students can develop their physical, leadership, cultural, artistic and social responsibility skills and experience and promote the universal values inherent to BEING.
