Bachelor's Degree in Interior Design

An UDEM LINT—

A professional capable of planning and designing spaces and functional, sustainable facilities while addressing the psychology of space and the users, is sought according to the ability to perform the necessary tasks. He cares for and protects the physical, mental and spiritual health of his clients and the environment and make relevant contributions to the progress of their communities through international education with a human touch.

Global Education—

It is essential for UDEM to train professionals with a global vision, a capacity for analysis, and the ability to perform tasks within the international context. We believe that 10% of the courses taught in our schools can be performed abroad through enrolment at one of the 650 universities in the world, offering you a multicultural on-campus environment through a solid model of international participation which includes:

1. The promotion of international academic activities and programs.
2. Constant interaction with foreign students and professors.
3. Visiting faculty from universities in other parts of the world.
4. The learning of a third language.
