Important information about NX Student Edition

- Watermarks are added to printed and plotted data, to prevent the NX Student Edition from being used for commercial work.
- Part files created in NX Student Edition cannot be retrieved in a commercial version of NX, but can be retrieved in the full academic packages available to educational establishments.
- CAM data is not available for post-processing, and the displayed output of tool path information has limited precision.
- This software is not available to students under the age of 14. By requesting this download, you certify that you are age 15 or older.
